

Play Down Form – School Age Exemption

A registrant that has been placed in a school year (without having repeated a previous school year) would be genuinely considered to be allowed to play in their designated school year, upon proof of school year registration from the relevant Primary and Secondary School. Typically:

- o They were placed in that school year due to having moved to WA from an outside location,
- o May have relocated within WA to another school that have placed them in that school year,
- o May have been considered immature at an earlier age and placed there by the school when first registering,
- o Would have a birth date within proximity of the prescribed school year dates.

The _____ Junior Football Club makes an application for:

Player Name: _____

Address: _____ Post Code: _____
