Dear Club Committees,

As presented at the Perth Football League Annual General Meeting last evening, TidyHQ is now live as the platform for the league and clubs to access.

An investment from the PFL to improve volunteer experience, TidyHQ (otherwise known as Tidy Connect) provides the ability in platform for clubs to manage tasks, create projects, manage meetings and communicate both within the club and to PFL staff.

To get started, 2-3 committee members from each club should have received an email today from the TidyConnect team with login details for your organisation's account. Each of these account holders has the ability to set-up and invite other committee members to the platform.

For now, we encourage committee members to explore the platform, particularly the Projects area, as this is where all tasks from Perth Football League will appear. Our Tidy Onboarding Specialist will be running training workshops for TidyConnect soon, please register for one [here](#).

The two workshop options are:

Wednesday March 6                      6:30-7:30pm (Perth time)  
Monday March 11                         6:30-7:30pm (Perth time)

For assistance, please reach out to me or contact our Tidy onboarding specialist: [nat@tidyhq.com](mailto:nat@tidyhq.com). You can also find more information on how to use Tidy Connect by visiting [Tidy's support database](#).

The TidyHQ platform will be the primary medium that you will receive information and tasks from the PFL from season 2024 and beyond with formal commencement from March 12 onwards.

I look forward to supporting your club through this exciting transformative period.

Mark Sanders  
Club Development Manager
